

## FREEDOM

**FREEDOM** was an artistic collaboration involving delivery partners from four different countries (UK, Germany, Bulgaria and Romania). Led by ArtReach (<http://www.artreach.biz>) the other formal partners were Haus Drei (<http://haus-drei.de>) and the Fabric Association (<http://www.fabrikata.eu>) with delivery support also from Fondacion OBOS in Bucharest. The project was co-funded by the Creative Europe programme of the European Union.

Working through a process of co-curation and collaborative delivery between April 2015 and August 2016 the partners shared innovative artistic practice to create three multi art form ingredients that celebrated and explored values of freedom - a Night Time Lit Carnival performance, a Freedom Wall installation programme (online and physical) and a series of art installations (The Plinth Programme) presented on a temporary basis as part of outdoor festival events – all for delivery in the UK, Germany and Bulgaria, under the cohesive artistic umbrella of the *Night of Festivals* project.

The results included:

Up to 50 local community participants took part in each city as performers within the Night Time Carnival with 2,600 people participating in additional participatory Freedom Wall creation across the programme.
